Noah's Digital Security Service

1. Executive Summary

Noah's Digital Security Service has been developed through much research to address public concern with protecting their property. Owner Paul Murray worked in law enforcement for over Thirty Five years, with the US Marshal Service and the Police Dept as a crime scene tech for the town of Seat Pleasant MD Police Dept. Digital Security System Services will go into businesses and private residences and make digital DVD and CD records of all the belongings in that business and residence.

We will also act as a consultant in advising people on how they can better protect their property. All DVD and CD are strictly confidential and a file of each will be stored in a vault at our business location. Start up expenses are \$150,000 including the cost of a Mobile DVD and CD recorders, and hi tech Digital camera and lab top computer. The start up costs are being financed by a broker. Digital Security System Services target market strategy is based on becoming an attractive choice for businesses and private homeowners on the West Coast and East Coast areas..

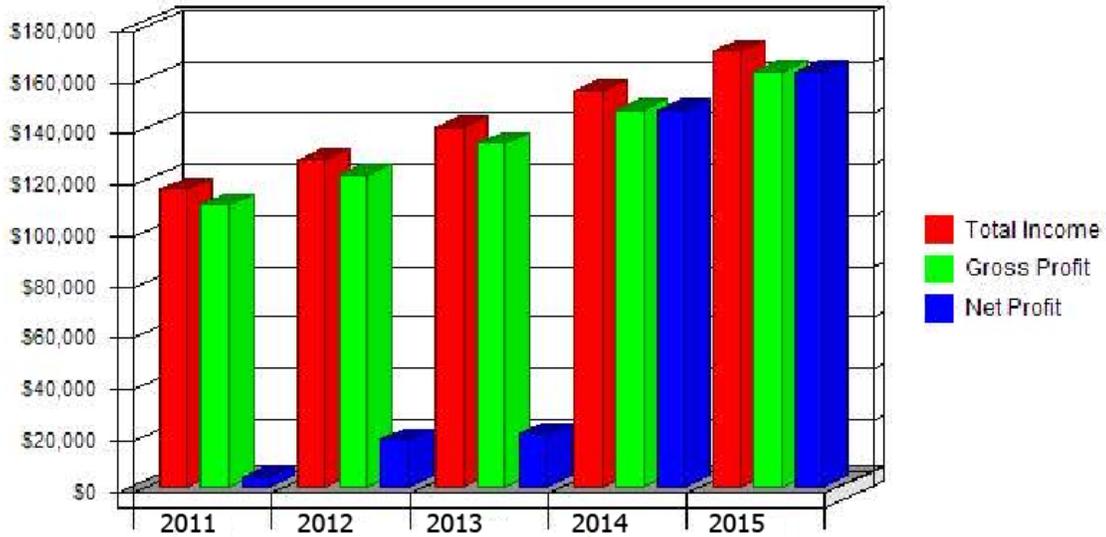

Our target markets will be small to large businesses wanting documentation of their belongings for insurance purposes. Private home owners will also be targeted with the same services. We want to provide superior in customer service, security knowledge, and maintain the strictest confidentiality.

There will be a simple but comprehensive website developed by an outside consultant, maintained by Paul Murray. The website will show what services we have to offer and what the associated costs will be. Owner Paul Murray will manage all aspects of the business which includes bookkeeping, overseeing one employee Dawn Reese. Paul will be the consultant in advising businesses and homeowners on security issues.

Noah's Digital Security Service is looking for a growth rate in sales of 10% for the year 2012, to total in excess of \$120,000 in total revenues. This is a new niche for the security industry that has not been tapped and **Noah's Digital Security Service** is excited to serve the citizens of the United States in the coming year and the future.

Noah's Digital Security Service

Highlights

1.1. Objectives

1. Realize an annual growth rate of 40% in the year 2011.
2. Maintain a gross margin of at least 40% each month.
3. Generate an average of \$120,000 in sales the first year.

1.2. Mission

Noah's Digital Security Service intends to provide a Digital documentation security service that helps the business and homeowners feel more at ease with the security of their property. Protecting and insuring ones property touches people in a very personal way.

Noah's Digital Security Service intends to give quality customer service keeping the clients privacy and feelings at the forefront. Our service will help people protect the belongings that they have worked so hard to acquire, and will advise clients in preventative protection.

Noah's Digital Security Service

1.3. Keys to Success

The primary keys to success for the company will be based on the following factors:

- Sell our services with excellent customer service and support.
- Continue a supportive relationship with law enforcement agencies.
- Retain customers to generate repeat purchases of our services.
- Referrals from our existing customer base.

2. Company Summary

Noah's Digital Security Service has been developed through much research and effort to address public concern with property protection. Owner Paul Murray has developed a unique approach to home security. Having worked in law enforcement for over thirty five years, a former Deputy US Marshal and a Crime scene Police officer Paul Murray understands the need for business and home security.

Noah's Digital Security Service will go into homes and businesses to make a Digital Security DVD OR CD record of all the belongings in that business and residence. We will also act as consultants advising people about how they can better protect their property with on-site inspections. **Noah's Digital Security Service** will make a copy of the DVD or CD for each customer and will have a file at our business location with the customer clearance. Our start up costs will be \$150,000.

2.1. Company Ownership

Paul Murray is the sole proprietor of **Noah's Digital Security Service**. Paul has worked in law enforcement for over thirty five years. Former Dep US Marshal and Police Officer

Noah's Digital Security Service

2.2. Start-up Summary

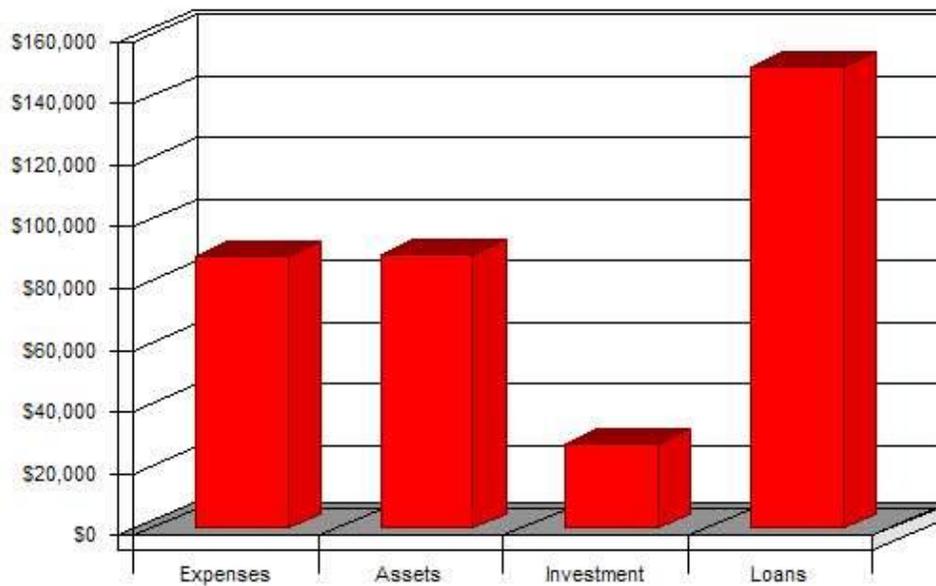

Our start up expenses come to \$150,000 which includes rent for \$5,000, the printing of brochures for initial distribution, and the purchase of a DVD and CD writers and computers camera at the cost of \$3,000. The start-up costs will be owner-financed by Paul Murray

Noah's Digital Security Service

3. Services

Noah's Digital Security Service provides documentation of all personal belongings for both the business and the private sector. We will create a DVD or CD record of the personal property of our customers so, in the event of a theft, fire earthquakes, floods, these items will be verifiable.

Our company also provides consultation in directing businesses and private homeowners about how they can better secure their properties.

4. Market Analysis Summary

Noah's Digital Security Service. Target market strategy is based on becoming an attractive choice for businesses and private homeowners in the greater Eastern and Western shores area. The target markets that we are going to pursue include small to large businesses wanting documentation of their belongings.

We feel there is a great need for documenting items that have value to these businesses, making it easier to deal with insurance companies in case of a burglary. Private homeowners will be targeted with the same services. Digital Systems Security Services would like to realize a 10% increase of potential customers on a yearly basis.

Noah's Digital Security Service

4.1. Market Segmentation

The profile of our customer consists of the following geographic and demographic information.

Geographic's

- Our immediate geographic market is the greater Western and Eastern shores metropolitan area with a population of 100,000 people.
- A 400 mile geographic area would want our services as we expand into business.
- The total target area population is estimated at 100,000 people.

Demographics

- Male and Female.
- Married and Single.
- Combined annual incomes in excess of \$50,000.
- Age range of 25 to 80 years, with a median age of 35.
- Own their own homes, townhouses and/or condominiums valued at over \$150,000.
- Most work out of the home by choice in a professional/business setting.
- Belong to one or more business, social and/or athletic organizations, which may include: Downtown Athletic Club, West Coast LA County, Women Associations, and the Los Angeles, Washington DC, Home Stead Fla All Chamber of Commerce.

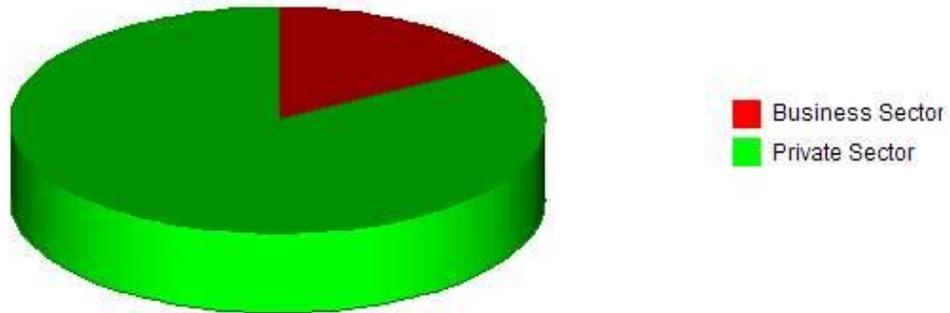

We know the following regarding the profile of the typical resident of the greater West Coast and East Coast shore area:

- 50% have lived in the area for 10 or more years.
- 30% are between the ages of 35 and 45 years of age.
- 40% have completed some college.
- 28% are professionals and/or business owners, or managers.
- 55% are married.

Noah's Digital Security Service

- 60% have children living at home.
- 52% own their own residence.

Market Analysis (Pie)

<i>Market Analysis</i>							
Potential Customers	Growth	2004	2005	2006	2007	2008	CAGR
Business Sector	10%	10,000	11,000	12,100	13,310	14,641	10.00%
Private Sector	5%	50,000	52,500	55,125	57,881	60,775	5.00%
Total	5.88%	60,000	63,500	67,225	71,191	75,416	5.88%

4.2. Target Market Segment Strategy

Our target market is based on becoming a resource of choice for people wanting to document their valuables as well as become educated on protecting their property. Our marketing strategy is based on superior performance in the following areas:

- Customer service
- Confidential record keeping
- Expert consultation

Noah's Digital Security Service

The target markets are separated into two segments; "Business sector," and the "Private sector." The primary marketing opportunity is selling to these accessible target market segments that focuses on the security of homes and businesses.

Business Sector - A lot of small, to large business owners need documentation of inventories as well as security tips and information. For insurance purposes it is important to keep up to date records in case of theft or damage to the property.

The types of business customers we will be targeting are small, medium, and large, with no particular industry in mind. As we begin operating our business we will concentrate on businesses that typically have up to a 100 employees. Again we will not concentrate on any particular industry but will look for businesses that meet our criteria.

The business needs to have valued inventory or valuables that they want documented for insurance purposes if we are to offer our DVD and CD documentation systems services. Our business customers can take advantage of our consultation to make their property more secure. Most of the businesses we will service have revenue of at least \$50,000 a year, with many exceeding that amount.

Private Sector - Many private homeowners are concerned with adequate property protection. Consultation with the homeowner about properly securing their property is a very viable benefit.

4.3. Service Business Analysis

The security industry continues to be very competitive. Traditionally the security business is about monitoring properties and sending police out if there is a problem. Having a security guard patrol properties is another service typically offered.

Noah's Digital Security Service is taking a different approach to business and home security. Expert consultation will be offered on how to properly secure properties with a complete walk through of each property. We will make a DVD or CD digital file record of all valuables that will be kept on file in case of theft or damage to the property. With the steady concern over the growth of crime in our society, and the need to have good records in case of an incident, our service is a truly needed one. All records will be kept strictly confidential.

Noah's Digital Security Service

4.3.1. Competition and Buying Patterns

The security industry typically offers business and home protection through alarm systems and on site patrolling. There are several security businesses in our geographic area. **Noah's Digital Security Service** is taking a different approach to the security business by offering services that are on the industry's cutting edge.

The consumer who does not feel the need to have a full time security company watching their properties but would like to do something themselves to protect their property will find what we have to offer very attractive.

5. Strategy and Implementation Summary

Our marketing strategy is based on becoming a viable resource for people looking for a way to document their valuable possessions and make their place of business and/or residence more secure. Our marketing strategy is based on superior service in the following areas:

- Expert knowledge;
- Customer service;
- Strict confidentiality.

Our marketing strategy will create awareness, interest, and appeal from our target market for the uniqueness of what we have to offer our customers. Once our potential customers are aware of what we have to offer we believe they will take advantage of our services.

5.1. Competitive Edge

Noah's Digital Security Service affordable one time cost package is new to the security market. Traditionally a monthly fee to watch homes or businesses is more than a lot of people want to pay, or they do not feel the need for such comprehensive coverage.

Noah's Digital Security Service

Noah's Digital Security Service fills an untapped niche to help businesses and homeowners document valuables, and learn how to better secure their properties against possible theft. With trained law enforcement expertise on staff our company can help businesses and homeowners protect their properties at a minimal cost.

5.2. Marketing Strategy

Our marketing strategy is based on becoming an option for businesses and homeowners looking for a way to document their valuables for insurance purposes and becoming more educated about securing their property. Our marketing strategy is based on superior performance in the following areas:

- Customer service;
- Security knowledge;
- Strict confidentiality.

5.3. Sales Strategy

The primary sales strategy includes:

- To offer strict confidentiality;
- To show value for services rendered;
- Professional consultation for business and home security.

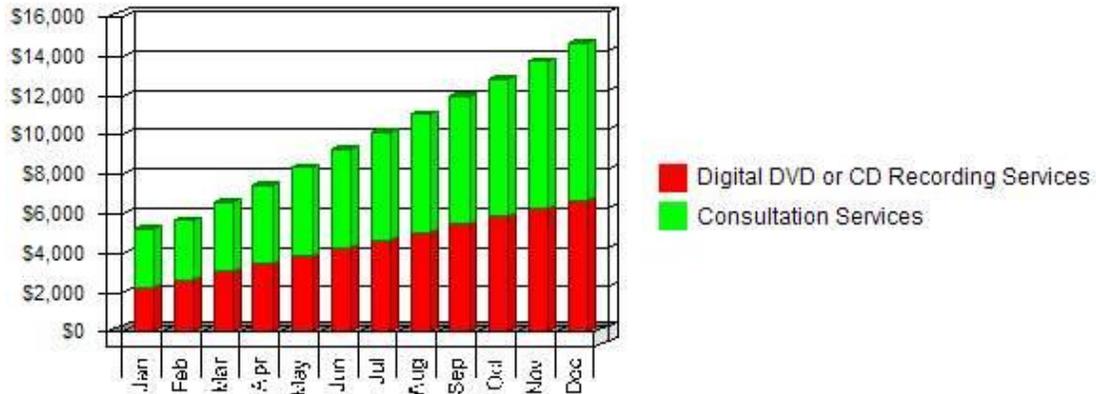

5.3.1. Sales Forecast

The sales forecast is broken down into two main revenue streams: DVD or CD recording services and consultation services. The sales forecast for the upcoming year is based on a modest 5% growth rate for sales. Being a start up business we are projecting a modest rate of growth adding one new customer a week for both the DVD or CD side, and the consultation side.

Noah's Digital Security Service

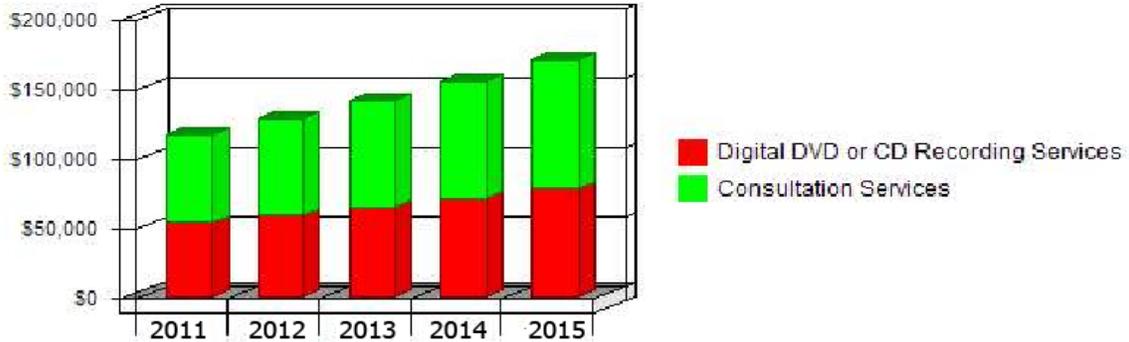

<i>Sales Forecast</i>					
Sales	2004	2005	2006	2007	2008
Digital DVD or CD Recording Services	\$52,800	\$58,080	\$63,888	\$70,277	\$77,304

Website development	9-1-11	9-1-11	\$2,000	Paul Murray	Consultant
Totals			\$7,200		

6. Web Plan Summary

A simple but comprehensive overview of what services our company offers will be provided on this site. A database will be kept that will help in future marketing endeavors. This will be done with a record kept of all visits to the site and a mailing list will be compiled to contact potential customers through emails.

Noah's Digital Security Service

6.1. Website Marketing Strategy

Our target market is businesses and homeowners in the greater Eugene/Springfield area. With information collected on the site through contact with potential customers we will modify our marketing plan to reach all potential customers. Basic information will be offered on the site listing our services. It is not our intent that the website be the main focus in our marketing plan, but that it is one component.

6.2. Development Requirements

Safe Keeping will use Fred Jones as a consultant to develop the initial website. We will maintain the website ourselves and if any questions or problems come up Fred will be happy to help out. It will take roughly two months to develop the site. The website will feature our services along with associated costs listed.

7. Management Summary

Owner, Paul Murray will oversee and manage all aspects of the operation of Safe Keeping. This includes bookkeeping, overseeing the employees, and being responsible for the purchase and storage of all DVD and CD files and equipment. Paul Murray will be the consultant advising businesses and homeowners on security issues.

7.1. Personnel Plan

The personnel plan contains only two people who will work for the company. Paul Murray the owner of the company will manage every aspect of the company. Paul's salary will build as the company grows and Paul will not draw out more than \$5,000 a month.

Dawn Reese will be **Noah's Digital Security Service** only employee from the start. Elaine Jackson will work full time and will make \$3,000 per month the first year.

Noah's Digital Security Service

Personnel Plan					
	2004	2005	2006	2007	2008
Paul Murray	\$45,000	\$50,000	\$55,000	\$0	\$0
One Manager full time employee	\$24,500	\$26,000	\$28,000	\$0	\$0
Total People	2	2	2	0	0
Total Payroll	\$69,500	\$76,000	\$83,000	\$0	\$0

8. Financial Plan

The financial plan contains these essential factors:

- A growth rate in sales of 10% for the year 2012, to total in excess of \$120,000 in revenues.
- An average sales per business day (305 days per year) in excess of \$500.00.

Difficulties and Risks

- Slow sales resulting in less-than projected cash flow.
- Overly aggressive and debilitating actions by competitors.
- A parallel entry by a new competitor.

8.1. Important Assumptions

The following critical assumptions will determine the potential for future success.

- A healthy economy that supports a moderate level of growth in our market.
- Keeping operating expenses low, particularly in the areas of personnel and ongoing monthly expenses.

Noah's Digital Security Service

<i>General Assumptions</i>					
	2004	2005	2006	2007	2008
Plan Month	1	2	3	4	5
Current Interest Rate	9.00%	9.00%	9.00%	9.00%	9.00%
Long-term Interest Rate	7.50%	7.50%	7.50%	7.50%	7.50%
Tax Rate	28.00%	28.00%	28.00%	28.00%	28.00%
Sales on Credit %	75.00%	75.00%	75.00%	75.00%	75.00%
Other	0	0	0	0	0

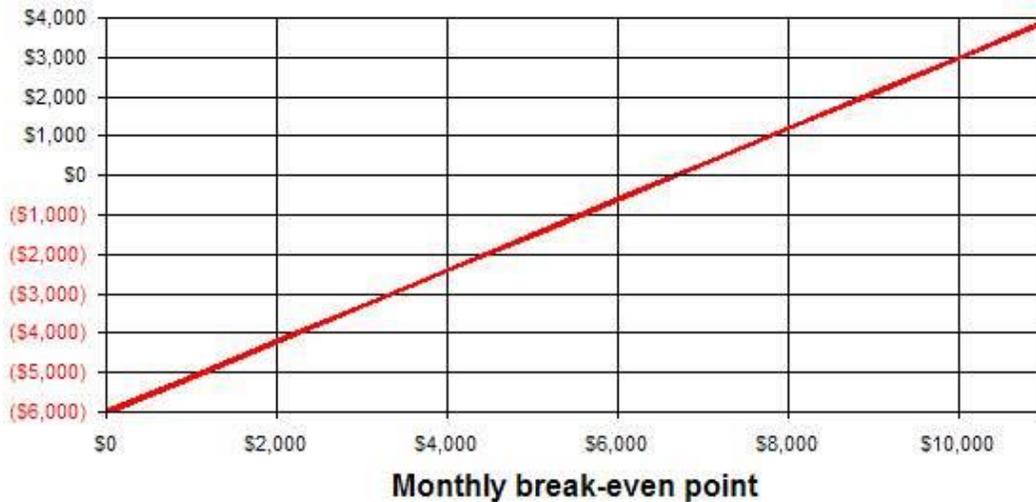

8.2. Break-even Analysis

The following table and chart summarize our break-even analysis. Our fixed cost will be \$10,000 per month at the onset and we expect to reach the break-even point with-in the first few months of operation.

Noah's Digital Security Service

<i>Break-even Analysis:</i>	
Monthly Units Break-even	13
Monthly Revenue Break-even	\$6,667
Assumptions:	
Average Per-Unit Revenue	\$500.00
Average Per-Unit Variable Cost	\$50.00
Estimated Monthly Fixed Cost	\$6,000

Break-even Analysis

Break-even point = where line intersects with 0

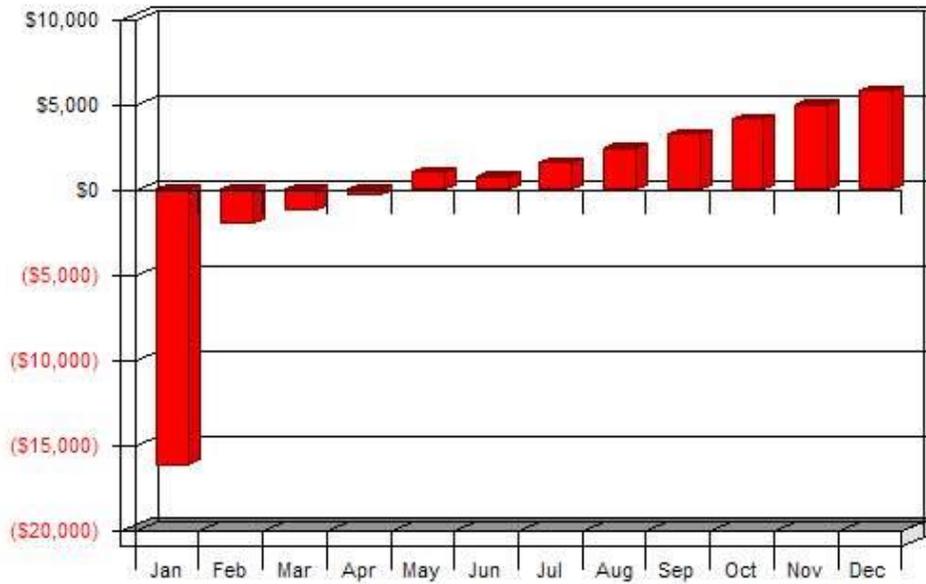

8.3. Projected Profit and Loss

8.6. Business Ratios

Business ratios for the years of this plan are shown below. Industry profile ratios based on the Standard Industrial Classification (SIC) Code 1731-04, Safety and Security Specialization are shown for comparison.

The following will enable us to keep on track. If we fail in any of these areas, we will need to re-evaluate our business model:

- Gross margins at or above 50%.
- Month-to-month annual comparisons indicate an increase of 10% or greater.
- Do not depend on a credit line to meet cash requirements.

8.7. Long-term Plan

Noah's Digital Security Service

We expect to increase our sales to \$1 million by 2011, while also increasing gross margin and profitability slightly. Our goal is operating income of 10% of sales.

At the end of the five-year period, our projected equity is \$3.85 million.

Appendix

PRESS RELEASE

FOR IMMEDIATE RELEASE

9. Nov 21,2011

9.1. BE PROACTIVE NOT REACTIVE – LEARN HOW TO BETTER PROTECT YOUR HOME OR OFFICE BEFORE A DISASTER STRIKES AND FEED YOUR FAMILY IN 5 MIN WITH OUT MICRO WAVE OR STOVES.

FLORIDA – Digital Security Systems (DSSI) is a company offering consumers the latest in technology to document their property before and after disasters. Paul Murray, the founder of DSSI, is a veteran law enforcement forensic specialist, property inspector photographer, former United States Federal Marshal, and current celebrity photographer.

Can you remember everything in your wallet or pocketbook? In the frenzied aftermath of a major storm, earthquake, fire or similar disaster, the last thing you want to be doing is trying to recall and take inventory of what you have lost in material possessions. DSSI can help you protect your interests before disaster strikes. By the time FEMA and your insurance company become involved you will be able to provide them with proper home, business and property documentation so that they can receive this information via instant digital photo transmission.

If your home or business should fall into a sinkhole, get completely wiped out by a fire, an earthquake, or storm and you can not return to your home or business where is your documentation going to be?”

The answer is to put your important documentation on a digital photo CD system and arrange for a proper place that will allow you to keep the disk in a safe, and our internet at www.mydocusafe.com.. Or DSSI will keep the disk in a safe and secure storage facility for you.

Murray states, “Currently CD’s are the industry standard for storing information. CD’s hold more information than the conventional method of writing, videotaping, processing and printing photographs. Digital images can be loaded on a computer and sent to the appropriate agencies with relative ease in the time of an emergency.

DSSI provides 5 Min Hot Meals that can be cook without micro waves or stoves for areas for emergency services on a 24 hour call 7 days a week. DSSI can be anywhere nationwide from coast to coast within 24 hours in most cases.

For more information about DSSI please contact Paul Murray at 877-863-35, 954 605-741165 or email pmmurray@pmmurray.com.
